# Welcome Message

Professor  
**Ho Chee Kit**  
Dean, School of Mathematical Sciences

Within the School of Mathematical Sciences, we extend beyond the realms of formulas and theorems. We foster the convergence of ambitious goals with unwavering determination, shaping future graduates into pioneering individuals equipped for the industry.

Our mission is to furnish students not solely with mathematical prowess but also with critical thinking, adept communication, and finely honed analytical skills, positioning them as formidable contenders in any field they pursue.

The canvas of mathematical research is vast and ever-evolving, holding the key to solving real-world problems like climate change and financial crises. Our dedicated academics pave the way, guiding students through this labyrinth of knowledge while our support staff ensures an environment ripe for growth.

Let's envision this leap year as an academic Olympics, where we embody scholarly athletes, conquering obstacles with the nimbleness of frogs and approaching challenges with the curiosity of tadpoles exploring uncharted waters. The truth is, within this leap year lies a chance for everyone to redefine boundaries, transcend limitations, and etch our mark in the world of mathematical excellence.

We will surge ahead with passion, crafting a tale of triumph where every graduate becomes a herald of mathematical excellence, prepared to illuminate the world with their expertise.
