Welcome to
Sunway International School
Sunway Iskandar

“We believe that when you deliver an excellent curriculum, combine it with superior teaching faculty and offer it in an outstanding facility, you have Sunway International School”

– John Mackle, Principal,
Sunway International School

Sunway International School commenced in January 2008 in Bandar Sunway, following the excellent academic track record of Sunway College and Sunway University. It is part of the Sunway Education Group and is owned and governed by the Jeffrey Cheah Foundation. Today, SIS is alma mater to students from more than 30 countries including Singapore, Indonesia, South Korea, Japan, China, Canada, Russia, America, Australia, Germany, Great Britain, India and many more.

SIS's new campus in Sunway Iskandar is scheduled to welcome its first intake of students in 2017 and will offer Early Years, Primary, and Secondary levels of schooling. The modern and contemporary school campus is designed to deliver an international school curriculum that is both Hi-Tech, with effective adoption of educational technologies, as well as Hi-Touch with strong emphasis on students' development of soft skills.

Curriculum

At SIS Sunway Iskandar, the Early Years through to Grade 10 curriculum is based upon the internationally renowned Canadian (Ontario) Curriculum and focuses on students' individual learning and development as well as building their character by acknowledging each individual's unique personal strengths. In grades 11 and 12, students will pursue the International Baccalaureate Diploma Programme (IBDP).*

*SIS is a candidate school for the IB Diploma Programme pursuing authorisation as an IB World School.

Early Years

(Ages 3 – 5)

Classes are led by certified early childhood educators (ECE) and teachers. It focuses on children's emerging skills in language, numeracy and inquiry. Our curriculum stimulates each child's innate curiosity and exploratory nature through play-based learning and prepares them for more formal learning in higher grades. Children move to Primary School socially prepared, excited to learn, and familiar with the language, math, and inquiry skills that will serve them well as they progress.

Primary School Years

(Grades 1 – 5)

Primary School classes will continue the School's curriculum emphasis on literacy, numeracy, and inquiry through student-centred and activity-based learning. Interactive lessons set a solid foundation for early success and promote interest in learning Math, Science, Language, and the Arts. Besides providing students exposure to technological tools that shape their future learning and knowledge, individual and group work, and field trips within safe zones of Sunway Iskandar's natural surroundings are employed to develop students' foundation for, in, and at learning. The Primary School curriculum also focuses on the development of students' communication skills, appreciation for the arts and sciences, as well as social and motor skills.

Secondary School Years

Middle School (Grades 6 – 10)

The Middle School curriculum balances academic rigour with creative interests. Students are exposed to fun and fruitful learning, participate in class discussions, and explore issues and ideas with confidence. The Middle School curriculum comprises subjects in Languages, Mathematics, Science and Technology, Social Science, and the Arts, thereby building a strong academic foundation in diverse areas of studies. The following subjects are normally offered but subject combinations and variations will be determined by the School according to students' needs.

Courses

- English – literacy focus
- Mathematics – numeracy and analysis
- Science and Technology – scientific thinking and innovation
- Social Science – history, geography, civics, business, career studies
- Health and Physical Education – healthy active living, personal wellness
- Languages – French, Mandarin, Malay
- The Arts – visual arts, drama, music, dance

As students progress into higher grades, greater emphasis is placed on project-based learning, assignments, field trips, independent research, and group work to prepare them for smooth and effective transition into the High School curriculum.

The School's Laptop Programme commences in this section of the Middle School curriculum. Students utilise individual laptops to develop their skills of independent study, analysis, and research, while inferring meaningful links between textbooks and the world beyond their classrooms.

High School (Grades 11 – 12) International Baccalaureate Diploma Programme

The Grades 11 - 12 curriculum prepares students for university and professional studies. A Candidate School pursuing authorisation as an IB World School, SIS aims to offer the International Baccalaureate Diploma Programme (IBDP)*, an internationally renowned and rigorous two-year pre-university curriculum, taught by certified IB teachers. The IBDP is recognised as a premier programme for students to acquire a holistic and broad-based education and is a choice qualification for admission into top-tier universities.

For students to acquire breadth of knowledge and understanding, IBDP requires students to choose one subject from each of the following five groups (1 to 5) with either an arts subject from group 6 or a second subject from groups 1 to 5. Therefore, the IBDP allows students to develop in their best language, additional language(s), the social sciences, the experimental sciences, mathematics, and the arts.

- Group 1: Studies in Language and Literature
- Group 2: Language Acquisition
- Group 3: Individuals and Societies
- Group 4: Sciences
- Group 5: Mathematics
- Group 6: The Arts

In addition to disciplinary and interdisciplinary study, the IBDP curriculum framework broadens students' educational experiences and challenges them to apply their knowledge and skills to real world situations.

When authorised, the IBDP at SIS accepts students with the Canadian (Ontario) Grade 10, SPM, O-level, or equivalent qualifications. Scheduled to commence in January 2017, SIS will be a November Exam school.

* Sunway International School is a candidate school for the IB Diploma Programme pursuing authorisation as an IB World School. IB World Schools share a common philosophy—a commitment to improve the teaching and learning of a diverse and inclusive community of students by delivering challenging, high quality programmes of international education that share a powerful vision.

** Only schools authorized by the International Baccalaureate can offer any of its four academic programmes: the Primary Years Programme (IBPYP), the Middle Years Programme (IBMYP), the Diploma Programme (IBDP) or the IB Career-related Certificate (IBCC). Candidate status gives no guarantee that authorization will be granted. For further information about the IB and its programmes, visit www.ibo.org

The Canadian and International Baccalaureate Curricula Advantage

- Worldwide recognition for admission into university and professional studies
- Promotes learning through practical (real world) and engaging (hands-on) approaches
- Develops skills in research, communication, presentation, and performance
- Students become critical thinkers and independent learners
- Integrates technological resources into teaching and achievements

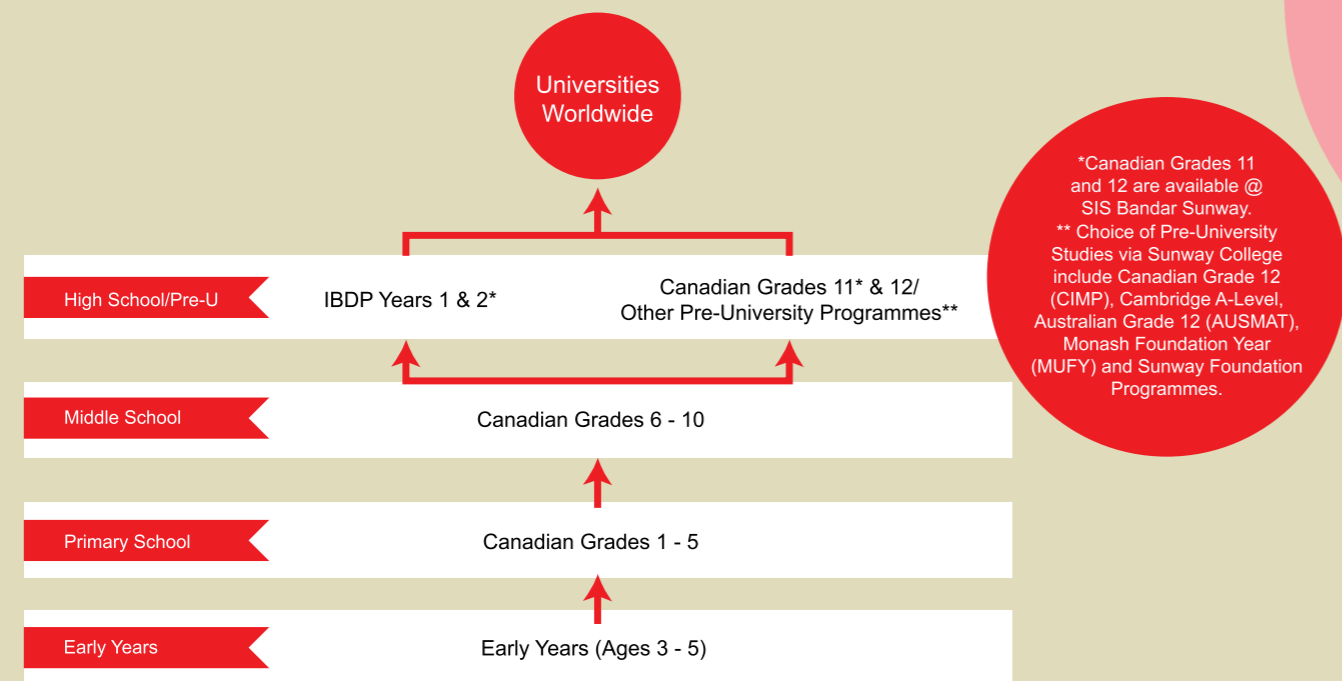

Assessment of Learning

At SIS, review of students' learning and development is continuous and cumulative. Continuous assessments allow teachers to evaluate and coach students towards achievement of general and specific goals in knowledge, understanding, thinking, communication, and application. Teachers align assessment practices with the School's overall curriculum expectations. A variety of assessment methods and strategies are used to bring out the best in our students' learning and achievements.

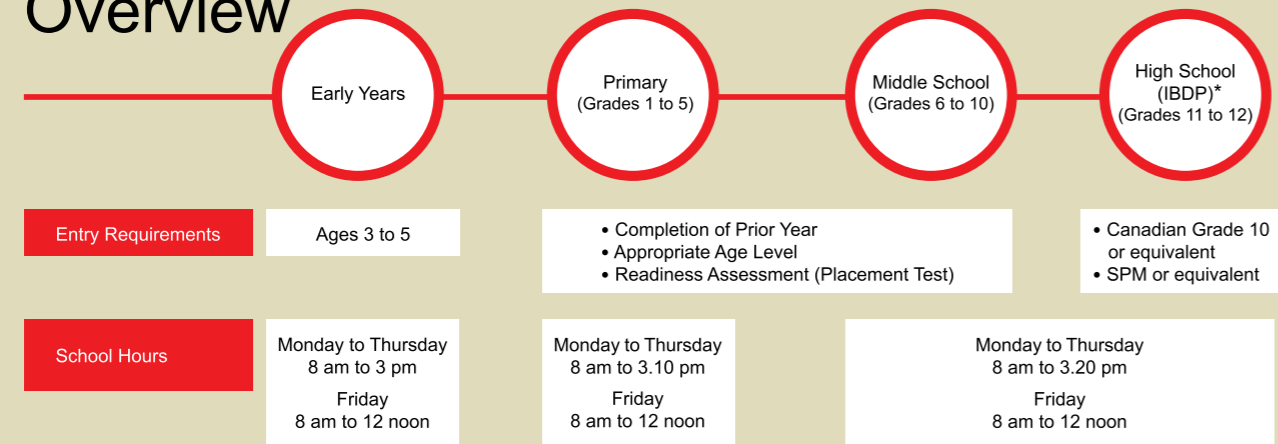

Academic Progression Pathway

*Canadian Grades 11 and 12 are available @ SIS Bandar Sunway.
 ** Choice of Pre-University Studies via Sunway College include Canadian Grade 12 (CIMP), Cambridge A-Level, Australian Grade 12 (AUSMAT), Monash Foundation Year (MUFY) and Sunway Foundation Programmes.

Overview

* Sunway International School is a candidate school for the IB Diploma Programme pursuing authorisation as an IB World School. IB World Schools share a common philosophy—a commitment to improve the teaching and learning of a diverse and inclusive community of students by delivering challenging, high quality programmes of international education that share a powerful vision.

Why Choose SIS

- Internationally recognised education**
 The Canadian School Curriculum is ranked among the world's best in education. It has consistently received high ratings in the Programme for International Student Assessment (PISA)*.

* PISA is a worldwide study by the Organisation for Economic Co-operation and Development (OECD) on scholastic performance of students in Mathematics, Science and Reading. Source: OECD PISA

- Certified teachers and educators**
 SIS teachers are educators certified by the Ontario College of Teachers (OCT) and/or hold other recognised teaching qualifications. Students are in the care of highly qualified, dedicated, and caring educators focused on helping every child reach their fullest potential.

- Comprehensive school programme**
 SIS Sunway Iskandar offers the full K-12 curriculum, i.e. from Pre-School level all the way to Pre-University level in one school campus. Progression from SIS's Grade 10 into the IB Diploma Programme is seamless.

- Conducive learning environment**
 SIS's campus is conducive and safe. It is a purpose-built school campus with modern learning and sports facilities to suit our students' curricular and extra-curricular needs. Our facilities include:

- Classrooms equipped with interactive whiteboards and WiFi connectivity
- Well-equipped science laboratories
- Discussion rooms and break-out-spaces for group interactions
- Spacious and airy cafeteria
- Multi-purpose hall for exciting events, games, stage performances, and ceremonies
- Library (Resource Centre) comprehensively stocked with educational and learning resources
- Outdoor and indoor sports facilities - football field, swimming pool, sport courts (volleyball, badminton, basketball, floor-ball), children's playground, and more
