

Implementation of digital badging on eLearn: An evidence-based approach beyond assessment

INTRO

The digital badges are introduced as part of the initiatives to help students to (1) recognise their skills in specific area of studies, and (2) monitor their learning progress (especially during pandemic period).

Students will have the opportunity to demonstrate their knowledge and skills earned through three (3) steps:

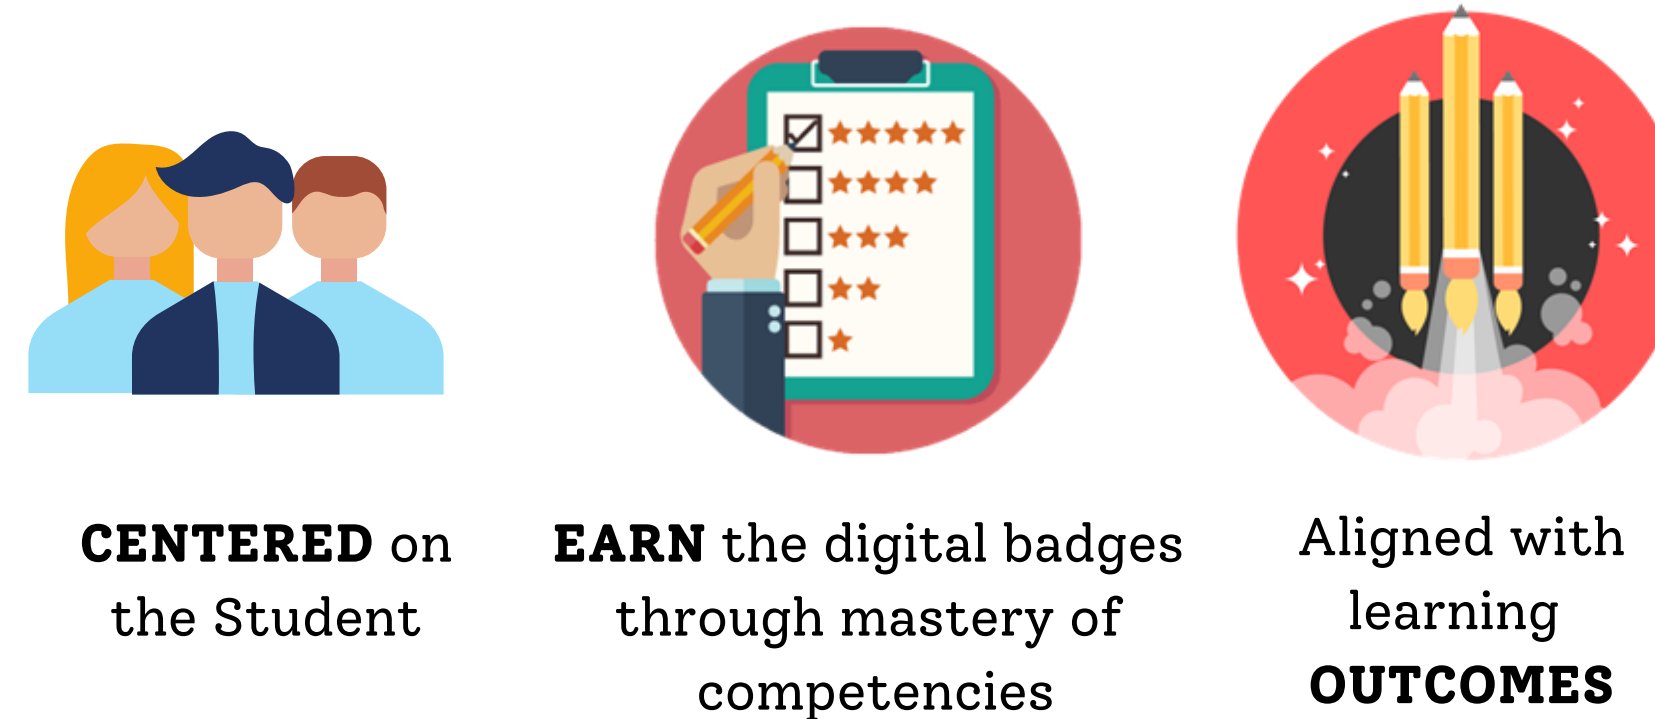

The LESS Model

OBJECTIVES

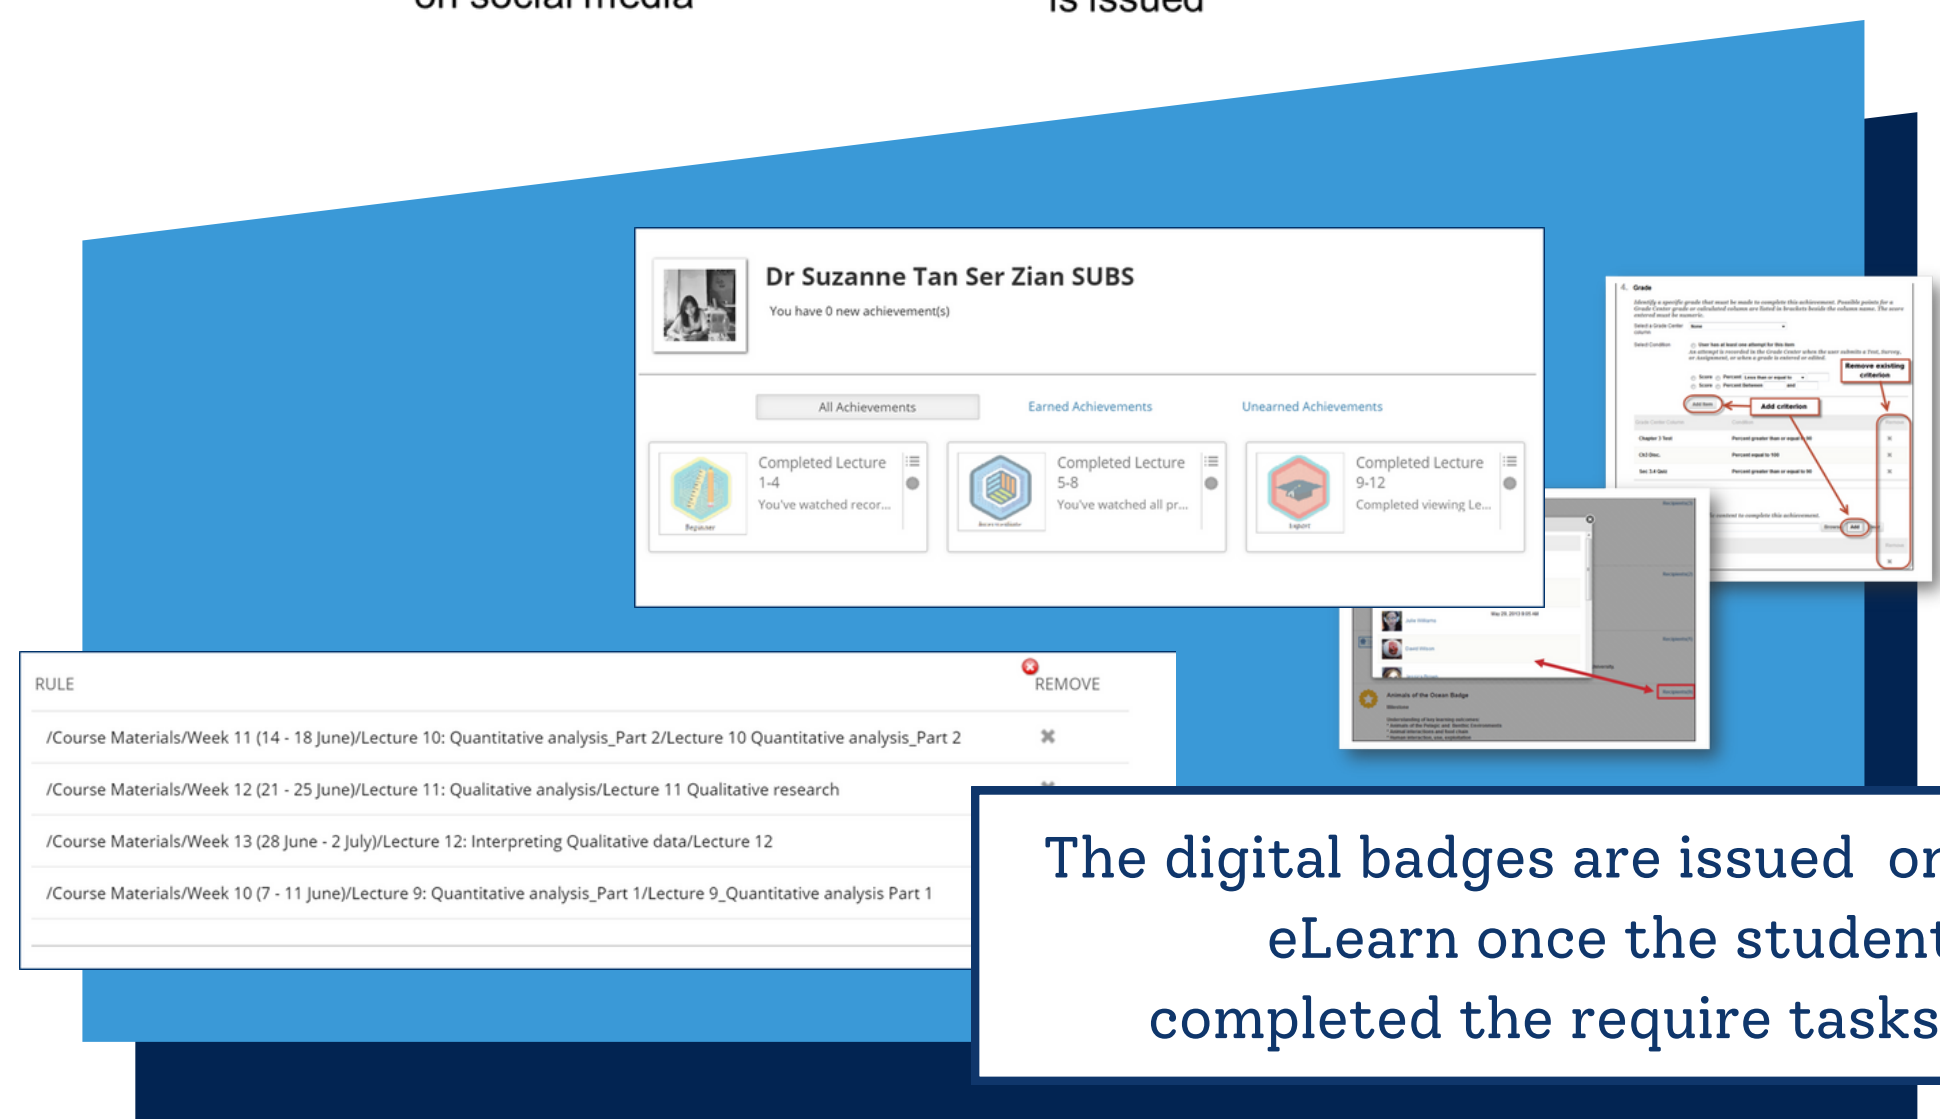

- 1 Recognizing Anytime, Anywhere whenever it happens.
- 2 Catalyse personalized learning through a transparent and verifiable system.
- 3 Allow students to monitor their own learning progress.

APPROACH

The CEO Framework

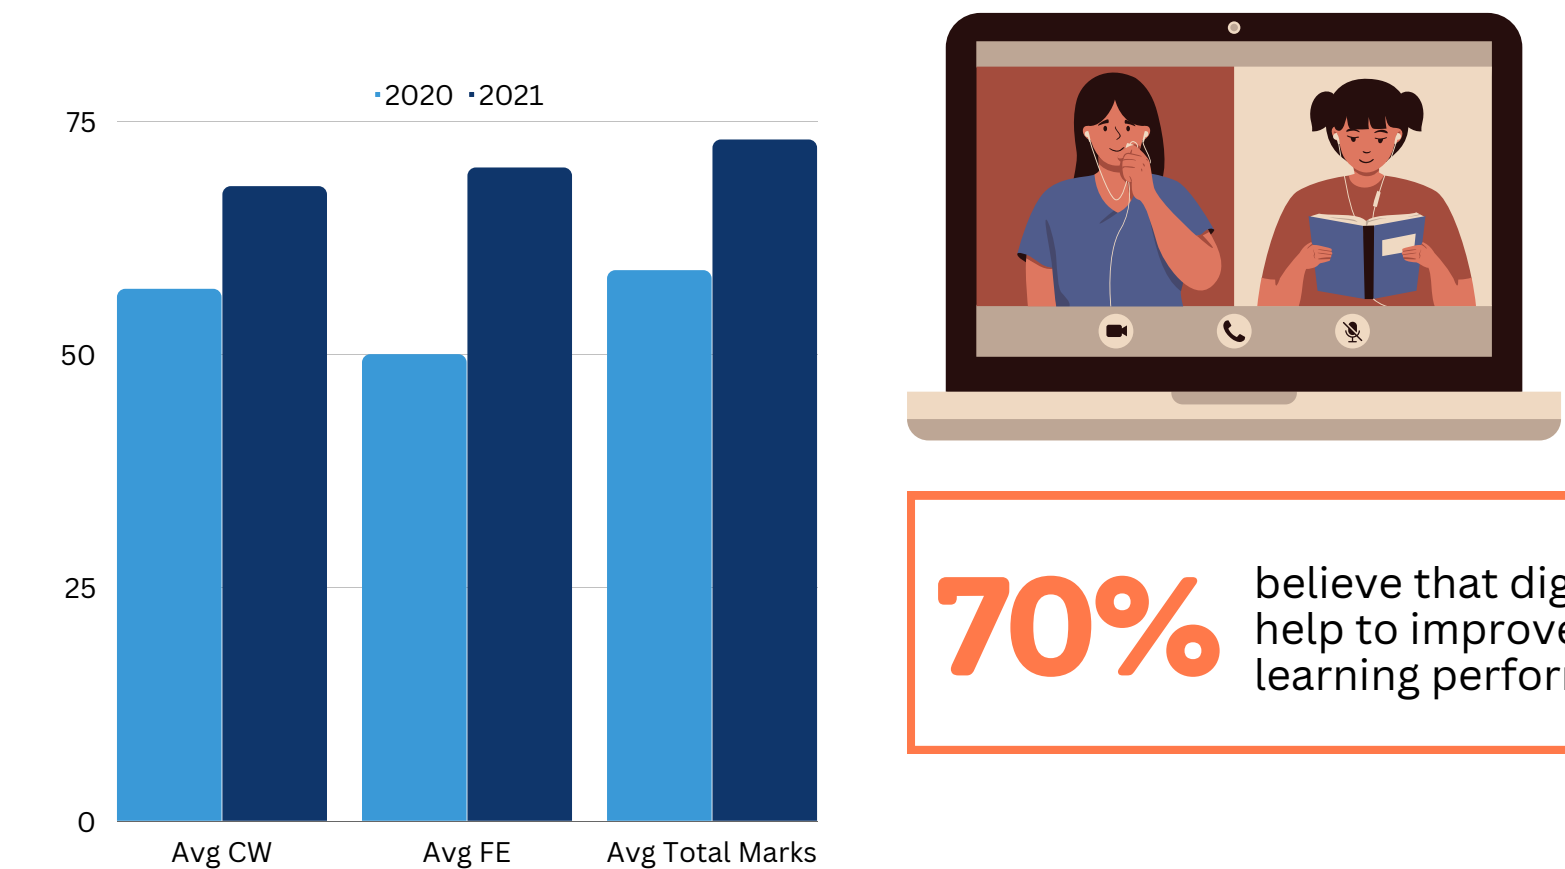

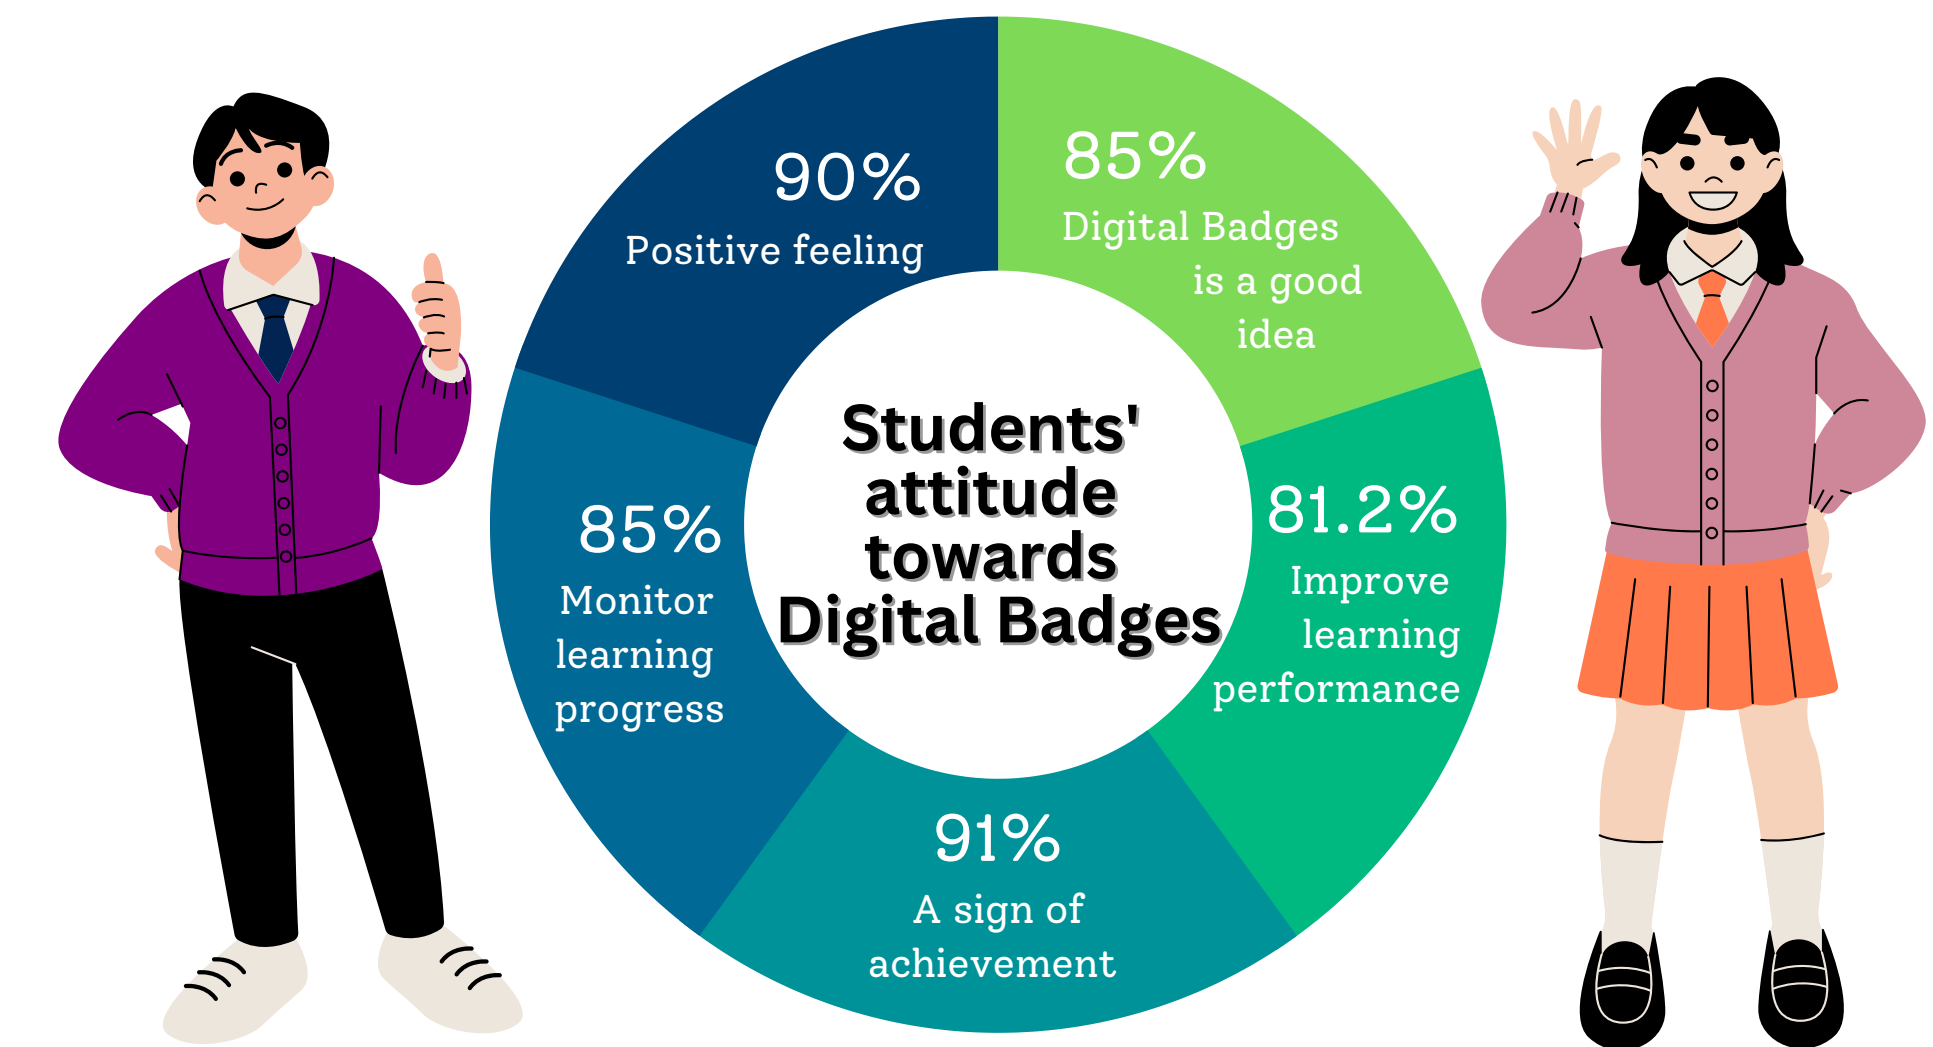

HOW-TO

The digital badges are issued on eLearn once the student completed the require tasks

IMPACT

RECOMMENDATIONS

- Award digital badge based on subject/programme learning outcomes
- Differentiate the different skill set earned by students from the same degree program.
