

The Mission-driven
5th Generation
University

A GLOBAL UNIVERSITY BUILT ON **SUSTAINABILITY, ENTERPRISE AND INNOVATION**

Located within a vibrant smart and sustainable city in Kuala Lumpur, Malaysia, Sunway University is a globally networked institution where industry, academia and society are seamlessly integrated.

The Sunway Story

From Wasteland to a Living Laboratory

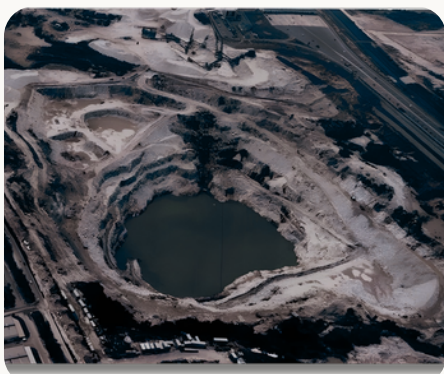

A Vision That Transformed Land and Lives

Several decades ago, the land where Sunway University stands today was a **tin-mining wasteland**, degraded by years of intensive mining activity.

Where others saw abandoned land, **Tan Sri Dr Jeffrey Cheah** saw an opportunity to restore the environment and build a community centred on **education, sustainability, and innovation**.

Today, that vision has transformed into **Sunway City Kuala Lumpur**, a thriving **smart and sustainable city** where education, research, and industry coexist.

At its heart stands **Sunway University**, serving as a **living laboratory** where ideas are tested, knowledge is created and solutions for the future are developed.

Sunway City Ecosystem

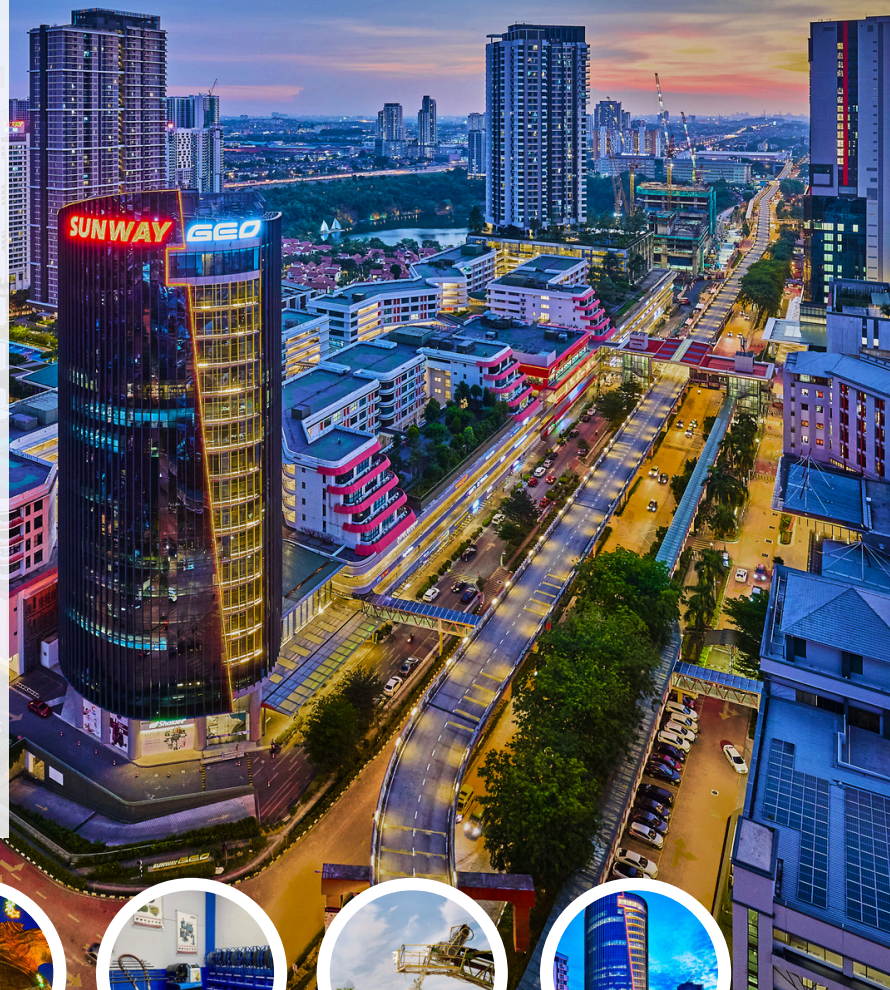

A University Embedded in a Real-World Ecosystem

Where Education Meets Industry and Society

Sunway University sits within **Sunway City Kuala Lumpur**, an integrated urban ecosystem developed by **Sunway Group**, one of Malaysia's leading conglomerates.

The group operates across **13 business divisions**, including healthcare, hospitality, infrastructure, property, retail and digital innovation.

This ecosystem provides students and researchers with **direct exposure to real-world challenges and opportunities**, creating a dynamic environment for applied learning and industry collaboration.
