POSTGRADUATE CERTIFICATE OF HIGHER EDUCATION PRACTICE

PACE & AED have officially kicked-off the first semester of the Postgraduate Certificate of Higher Education Practice on the 20th of August 2022. The first cohort includes 12 academics from Sunway University & 1 from Sunway College, KL. Classes are held on Saturdays. Colleagues on the programme are very committed to their learning journey. They enthusiastically engage in collegial sharing and critical reflection of teaching practices, supported by educational literature. Even though they are still in an early stage of the programme, colleagues have already identified ways in which they can improve their teaching practices. We hope to see more colleagues submitting their application to enrol into the programme next year!

PALP 2022

The first cycle of Peer Assisted Learning Programme (PALP) for 2022 successfully ended on 15th July 2022. The peer leaders have done a really great job in supporting their mentees during peer learning sessions. Mentees regard their peer leaders and the study support programme very highly.

The second cycle has officially started on the 12th of September 2022 with 35 peer leaders and 503 mentees. We are sure that this programme remains very relevant and will continue to support students so that they excel in their studies.

Out of the Dark & Into the Light: Teaching & Learning Poster Competition

AED's Teaching & Learning poster competition, with the theme "Out of the Dark and Into the Light" is coming soon. The competition will be showcasing academic talents from Sunway University and Sunway College, KL. Don't miss this opportunity to learn from our academics on what they have learnt from teaching during the pandemic and what they are currently doing to support their students' transition back to f2f learning. You may find great ideas that you can adapt and adopt in your own practice. In total, we are expecting 30 posters and they will be evaluated by local & international judges. Come & join us!

Launching Event

The launch of this inaugural poster competition will be attended by the President of Sunway University, Prof. Sibrandes Poppema, Provost, Prof. Abhimanyu Veerakumarasivam and Pro VC in Education, Prof. Matthew James Sansom. Do come & join us!

Date. : Wednesday ,12th October 2022

Time : 10 am - 11am

Venue: LT 7, NUB East Wing, Sunway University

Gatekeeper Workshop**
Magtum Aen & Chloe Wong Kah Yee
14th October 2022
9am - 12pm

NEW TEACHING & LEARNING FACILITIES

Hybrid Active Learning Classroom (HALC)

AED has 2 HALCs that are being used for workshops and classes. The two rooms are fully equipped with touchscreen monitors & a tracking camera for hybrid learning. The tables are arranged to encourage collaboration. This semester, some SU academics are piloting the use of the classrooms with their students to enhance their teaching & learning. We have received really good feedback from them and their students. In the future, more classrooms will be converted into a similar set up.

AED Recording Studio

If you are looking for opportunities to improve the quality of your educational videos, do try out our recording room facilities.

To use our recording room, please attend our VIDEO RECORDING ROOM TRAINING (if you haven't done so). To choose a training session - [CLICK HERE](#)

If you have attended the training and would like to book the recording room, please click [HERE](#)
