WHY STUDY AT SUNWAY UNIVERSITY?

SUNWAY IS ONE OF THE TOP 150 UNIVERSITIES IN THE WORLD UNDER 50 YEARS OLD

As one of Malaysia's leading and internationally recognised private universities, Sunway University is positioned amongst top universities in the world by QS World University Rankings. Sunway University is ranked #586 globally in the QS World University Rankings 2024 and is the #1 non-government linked private university in Malaysia in the Times Higher Education World University Rankings 2023.

Sunway University has been awarded #1 in Graduate Employability among all universities in Malaysia by Talentbank Group for two consecutive years (2022, 2023) through the National Graduate Employability Index.

The University emerged as an Overall 5 Star rated (Excellent) institution in the QS Stars University Ratings, as well as Five-Star ratings for the individual categories: teaching, facilities, employability, social responsibility, inclusiveness, academic development and internationalisation.

Collaborating with world class partners - Lancaster University and Le Cordon Bleu International, Sunway University offers premier education with international repute. The University also partners University of Oxford, University of Cambridge, Harvard University, Massachusetts Institute of Technology and University of California, Berkeley.

MALAYSIA'S #1 NON-GLU* PRIVATE UNIVERSITY

*Government-Linked University

EXCELLENT

Sunway Business School is the FIRST private Malaysian university to attain the globally prestigious AACSB accreditation. It is the gold standard for business schools as less than 6% of business school worldwide have been accredited by AACSB.

(AACSB - Association to Advance Collegiate Schools of Business)

Times Higher Education (THE) World University Ranking 2024

#301-400 for Business & Management

Receive **accreditations and certifications** from internationally recognised professional bodies >> CIPD, CIM and CMI

* Terms and Conditions apply

MASTER OF BUSINESS ANALYTICS (MsBA)

DURATION

Full-time - 1 year
Part-time - 2 years

INTAKES

January, March, May July & September

TAUGHT PROGRAMME

- A comprehensive, industry-relevant programme designed to incorporate three essential domains: business analytics, information technology and business innovation.
- Learn intellectual underpinning theories and practice in business analytics and business-related areas in a holistic learning style.
- Apply data-driven analytical approaches to describe and diagnose business problems, predict future possibilities, and prescribe solutions.
- This programme provides specialised knowledge for students to become competent in predictive analytics; gain the opportunity to explore new tools available in the industry and hone your skills in the science of decision-making

CAREER PROSPECTS

- Accounting/Finance/HR Analyst
- Business Analyst/Marketing Analyst
- Business Consultant
- Chief Technology/Information Officer (CTO/CIO)
- Information Systems/Sports/Social Media Analyst

Electives (Choose 2)

- AI and Decision Making
- IIoT: Business & Technology
- Time Series Analysis and Forecasting
- Web and Social Media Analytics

Capstone Project

This course includes a Business Analytics Capstone Project to enhance and demonstrate cognitive skills surrounding the application and interpretation of business analytics in a real-world business context and develop communication skills to transfer knowledge clearly, effectively and appropriately in relation to data analytics issues.

PROGRAMME STRUCTURE

This curriculum is designed to prepare students for the challenges faced as a business leader in today's rapidly changing environment. MsBA strives to provide students with fundamental skills and cutting-edge business knowledge that equips them with innovative thinking in today's organisations.

Core Modules

- Advanced Business Analytics and Visualisation
- Business Intelligence
- Business Statistics Using R
- Business Research Methods
- Data Mining
- Machine Learning for Business Decisions
- Management and Business Analytics
- Python for Business Analytics

MASTER OF PHILOSOPHY (BUSINESS ADMINISTRATION)

DURATION

Full-time - 2 years
Part-time - 3 years

INTAKES

January & July

RESEARCH PROGRAMME

- The Master of Philosophy (MPhil) programme is a full research degree that aims to expand your research knowledge to conduct independent research in different areas of Business Administration. In addition, you are encouraged to develop new ideas or employ well-thought-out methodologies to produce research that has substantial theoretical and practical contributions. You will utilise the best-suited research design to explore and/or test informed ideas. The outcome of your research extends the frontiers of knowledge, and you will disseminate the scholarly findings to peers and practitioners, through academic and professional networks, conferences/seminars, and even publications.
- Sunway University has a dedicated team of academicians to mentor you along your research journey, as you investigate a topic of your choice. You may pursue a topic or an issue which you are currently researching within your workplace, in which case your M.Phil. can also be of direct relevance to your current employment. Alternatively, you can choose to undertake research in any particular area you are passionate about. Although you are allowed to choose any research topic of your interest, the research topic must be contemporary, interesting, and timely.
- When applying to the programme, you should be able to demonstrate a strong research foundation. The completion of the M.Phil. requires a candidate to submit a thesis of 35,000 to 50,000 words.

CAREER PROSPECTS

- Adjunct professor
- Advertising manager
- Economist
- Editor
- Human resources manager
- Historian
- Market research analyst
- Publisher
- Political analyst
- Research associate
- School principal
- Teacher
- Technical writer

PROGRAMME STRUCTURE

The programme offers research methodology, research philosophy, quantitative research methods, and qualitative research methods. Students will also have to proceed through a set of milestones throughout the programme which include:

- Research Proposal Defense
- Research and Experimental Activities
- Viva Voce

CONTACT

DOCTOR OF PHILOSOPHY (PhD) IN BUSINESS

DURATION

Full-time - 3 years
Part-time - 4 years

INTAKES

January & July

RESEARCH PROGRAMME

A Doctor of Philosophy (PhD) is the highest level of academic qualification one can achieve. This qualification sets you apart as having developed an exhaustive understanding of your selected focus area in the discipline of business studies, placing you at the forefront of your chosen field of research.

Our PhD in Business provides you with opportunities to undertake extensive investigation within your chosen business field and you are encouraged to develop new ideas or employ well thought-out methodologies to produce noteworthy theoretical and practical contributions. You will utilise the most suitable research design to explore and/or test informed ideas. The outcome of your research extends the frontiers of knowledge and you will disseminate the scholarly findings to peers and practitioners, through academic and professional networks, conferences or seminars and even publications.

The University has a dedicated team of academics to mentor you along your research journey, as you investigate a topic of your choice. You may pursue a topic or an issue in which you are currently researching within your workplace, in which case your PhD can also be of direct relevance to your current employment. Alternatively, you can choose to undertake research in any particular area you are passionate about.

You will be a part of an elite group of respected scholars, who actively promote scientific, technological, social and cultural progress whilst also shaping business, legal and societal boundaries. By the end of your study, you would have developed expertise in your chosen field and be well-equipped with the necessary knowledge, skills and personal attributes to carry out independent research.

CAREER PROSPECTS

Doctoral graduates are highly trained specialists in their fields. You may enter careers in academia, research or consulting as well as undertake specialist roles, for example as analysts in investment banking.

CLASS SCHEDULE

Full-time Schedule:

- Approximately 3-6 hours per week for six weeks*

**The schedule is specifically for the research methodology classes; classes may change if it happens to fall on a Public Holiday*

SUSTAINABLE DEVELOPMENT & PUBLIC POLICY

MASTER IN SUSTAINABLE DEVELOPMENT MANAGEMENT

(Blended mode and ODL mode)

DURATION

Minimum 12 months

INTAKES

January, March, September

TAUGHT PROGRAMME

SUSTAINABLE DEVELOPMENT FOR A BETTER WORLD

The New Normal of the world of the 21st Century is characterised by global pandemic, extreme weather patterns, political populism, social inequality, loss of biodiversity, financial crisis, economic stagnation of middle-income countries, trade wars and geo-strategic competition, food contamination and food insecurity, and worsening urban blight. This New Normal prompted the United Nations in 2015 to announce the 17 Sustainable Development Goals (SDGs) as the solution to the problems to this New Normal.

The world is in desperate need of people who understand this New Normal and are able to formulate new strategies to achieve these 17 SDGs in order to ensure collective sustainability in ecological balance, economic dynamism, environmental safety, social harmony, and effective international partnerships in global health, international peace, and climate action. The Master in Sustainable Development Management (MSDM) programme at Sunway University is designed to empower individuals and organisations to develop innovative solutions to achieve these 17 SDGs.

CAREER PROSPECTS

Graduates from this programme will use their knowledge and skills to generate solutions in their own organisations or sectors, or they may embark on new career paths. Whether innovators, social entrepreneurs, educators, consultants, political leaders, civil society activists, writers, or policymakers, they will be agents of change for a better world.

MSDM graduates are expected to work in public, private, and non-governmental organisations at all levels.

In the corporate sector, more and more businesses are establishing sustainability divisions to spur innovations that address social and environmental needs while simultaneously improving their bottom lines. Increasingly, various indices are being created to assess and rank businesses based on their sustainability.

In the public sector, governments strive to link the economic, environmental, and social dimensions of development. The concept of Sustainable Development occupies the policy discussion in practically all sectors of government at all levels, anchored in the needs and realities of the countries and regions.

In addition to those in the UN systems, there are also a growing number of non-governmental organisations, from local to international, dedicated to promoting and attaining the 17 SDGs.

PROGRAMME OVERVIEW

The Master in Sustainable Development Management (MSDM) aims to create a new generation of multidisciplinary practitioners adept at management and problem-solving using analytics and systems thinking guided by global concerns.

The programme aims to equip students with necessary management skills and acumen to create innovative solutions to achieve the Sustainable Development Goals (SDGs). It encompasses corporate sustainability strategies, social entrepreneurship, finance and sustainability, sustainable management and operations, as well as economics and development. This is built upon a broad knowledge base that covered critical areas like climate change, waste management, energy systems, agriculture and food systems, forestry, and biodiversity.

Students are not only exposed to theories and concepts but also real-world practices and case studies to gain a holistic understanding of the opportunities and challenges to achieving the SDGs in scientific, economic, business, and technological aspects.

The MSDM programme has two modes for delivery of instruction:

1. **Blended mode (Track 1) – In-person classes, OR**
2. **ODL mode (Track 2) – Fully online**

United Nations chosen destination for Sustainable Development Goals in Asia

PROGRAMME STRUCTURE

Students are required to complete 10 core courses, including Research Projects I & II, and 4 elective courses.

Core Courses

- Corporate Sustainability Strategies
- Earth's Climate System
- Economics of Sustainability Management
- Finance & Sustainability
- Global Foundation Course: Introduction to Sustainable Development
- Research Methods
- Research Project I
- Research Project II
- Social Entrepreneurship & Development
- Sustainable Management & Operations

Available Electives

- Biodiversity
- Energy Systems and Management
- Governance in Sustainable Development
- Sustainable Agriculture & Food Systems
- Sustainable Forestry
- Sustainable Waste Management
- Smart Tech & IOT

Class Schedule:

- All lectures and tutorials are held in the weekends in the daytime and weekdays in the evening (Malaysia, UTC+8)

PHD IN SUSTAINABLE DEVELOPMENT (by Research)

DURATION

- Full-time - 3 Years (minimum), 6 Years (maximum)
- Part-time - 4 Years (minimum), 8 Years (maximum)

INTAKES

January, July

RESEARCH PROGRAMME

- A full research programme focusing on key areas of sustainable development and themes outlined in the 17 sustainable development goals.
- Research topics will cover a wide range of complex issues and theories related to sustainable development, from addressing climate change and ecosystems issues to economic progress, social inclusion, sustainable management, public policies, environmental practices and governance.
- Students can select any key dimension of sustainable development and undertake in-depth research to develop insights, theories and practical solutions to help advance the sustainability goals.

PROGRAMME STRUCTURE

For this PhD programme by Research, students are required to complete:

- Research Methods
- Thesis Research

CAREER PROSPECTS

Positions in academia, industry, government and international and voluntary organisations that are pursuing the SDGs and sustainable practices.

RESEARCH AREAS

- Agriculture & forestry
- Biodiversity
- Bio-economy
- Climate system
- Corporate governance
- Corporate strategies & operations
- Decarbonisation
- Economics & sustainable development
- Education for sustainable development
- Electoral system
- Energy systems
- Environmental & ecological systems
- Finance & sustainable development
- Global production value chain
- Green finance
- Human capital development
- Information technology
- Land-use sustainability
- Macroeconomics policies
- Marine ecology
- Mathematical modelling & simulations
- Plants & food system
- Political science
- Psychology design, industrial design & creative industries
- Public policy & sustainable development
- Renewable energy
- Smart technologies
- Social entrepreneurship
- Social progress & social inclusion
- Solid & hazardous waste management
- Supply chain
- Sustainability mindset & leadership
- Sustainable development
- Sustainable infrastructure, transportation
- Sustainable tourism, hospitality & cultural heritage
- Trade & sustainable development
- Transportation & mobility
- Urban sustainability
- Waste management

MASTER IN PUBLIC POLICY

DURATION

Full-time - 1 year
Part-time - 2 years

INTAKES

January, May & September

Acceptance into the programme for Conventional and Open Distance Learning are by application and selection only.

TAUGHT PROGRAMME

PROGRAMME DESCRIPTION

We provide support, social networks and flexibility in an innovative learning and environment.

The Master in Public Policy at the Jeffrey Cheah Institute on Southeast Asia prepares students to develop practical solutions to real-world policy problems in the region through a multi-disciplinary focus in economics, quantitative analysis and public policy management.

This programme is formulated to equip graduates and mid-career professionals to develop greater technical capability in evidence-based policy analysis and to possess deeper understanding on fundamental concepts and contemporary issues on economic development, social inclusion, political governance and technological trends.

CAREER PROSPECTS

Graduates of the programme are expected to develop their career in middle-management in public and private sector. They are expected to be very competitive for careers in consulting and research institutions, public sector, NGOs, local banks, international development banks such as World Bank and Asian Development Bank, International Organisations such as UNDP, UNCTAD, and key regional research and consulting institutions.

INEQUALITY. AUTOMATION. GLOBAL WARMING.

We face increasingly difficult policy challenges. The COVID-19 pandemic has laid bare the structural challenges that plague the governance and administration of every country across the world.

More than ever, there is a pressing need for policy specialists who have a combined mastery of theoretical knowledge, technical skills and implementation abilities to solve these problems.

With the skills accumulated in this programme, graduates will be equipped to address the policy challenges of rapidly-changing socioeconomic dimensions in the region.

The programme's multidisciplinary emphasis on knowledge, analytic skills and management is highly transferable across sectors, issues and regions.

Graduates are able to work throughout the world in key roles in the public, private or non-profit sectors.
