SUNWAY UNIVERSITY | School of MATHEMATICAL SCIENCES

The School of Mathematical Sciences was established in 2017, and it offers both undergraduate and postgraduate programmes, in the fields of actuarial science, statistics, and the broader field of mathematical sciences. To date, the School of Mathematical Sciences has produced more than 1,200 graduates, who are now working in various industries, which include insurance, reinsurance, banking, finance and many more.

The school ensures that the programmes offered are closely aligned with the industry needs and the programmes provide a distinctive Sunway experience for students.

Recognition

TALENTBANK®

https://www.talentbankgroup.com

We have been recognised as the "Best in Class" and "Champion" for Actuarial Science and Analytics by Talentbank. Our programmes demonstrate an impressive job placement rate, as evidenced by the 6-star employability rating awarded by Talentbank.

Distinctive Sunway Experience

Actuarial Practice Course (APC)

This 3-month additional professional course - Actuarial Practice Course (APC) is offered exclusively for actuarial students. It is conducted by the school's in-house actuary, Ms Sophia Ch'ng, Fellow of the Institute and Faculty of Actuaries (FIA), providing students with hands-on assignments to better prepare them to be employment-ready.

The APC syllabus is closely aligned with the industry's needs and covers a wide range of relevant topics including:

- Pricing and reserving for life, general, and takaful business
- Reinsurance concepts
- Participating products features
- Capital management
- Risk-based capital (RBC) guidelines from Bank Negara Malaysia
- IFRS 17 guidelines

Actuarial Analytics Course (AAC)

AAC is a hands-on course conducted by our in-house actuary, Mr. Nicholas Cheong, Fellow of the IFoA. It is designed to bridge the gap between theory and practice and equips our students with the skills needed to meet industry demands and kick-start their actuarial careers seamlessly.

Through real-world case studies, students use Excel to perform data checks, analyse data patterns, build flexible models that adapt to parameter changes, calculate key statistics and automate and optimise tasks using Macro VBA.

Actuarial Risk Course (ARC)

ARC is designed to strengthen the academic pathway for students and support the development of a dedicated specialisation in the risk management track. The course equips graduates with deeper and more practical knowledge in this growing field.

The course is conducted by John Lee, a Fellow of the Institute and Faculty of Actuaries (FIA) and a Chartered Enterprise Risk Actuary (CERA), who brings extensive professional expertise and industry insights to the classroom.

Distinctive Sunway Experience (cont.)

Statistical Knowledge Industrial Project (SKIP)

SKIP is an innovative initiative designed to bridge the gap between classroom learning and real-world applications. SKIP provides a platform for industry experts to enter the classroom, offering students direct exposure to practical challenges and insights from the professional world.

Through SKIP, our statistics students gain the opportunity to apply theoretical knowledge to real-life problems, transforming abstract concepts into actionable skills. By engaging with industry projects, students no longer learn in the dark because they can visualise how statistical knowledge and practical techniques translate into meaningful, impactful insights.

This programme significantly enhances employability, equipping graduates with both the technical proficiency and problem-solving mindset highly valued in the workplace. To date, we are the only university offering this type of structured industry-academia link, turning knowledge into hands-on experience that prepares students for successful careers in data-driven fields. With SKIP, learning becomes more than just theory as it becomes a journey from knowledge to actionable impact.

Empowering Future Leaders

The School of Mathematical Sciences (SMS) develops students' leadership and professional skills through two student societies: SAFE (Sunway Actuarial & Financial Excellence) and STAMP (Sunway Statistical Modelling Professionals).

Founded in 2013, SAFE has organised leadership camps, alumni sharing sessions, industry visits, and the ASymposium Actuarial Conference, supported by IFoA and the insurance industry.

STAMP actively connects students with industry experts through knowledge-sharing events, enhancing their professional exposure.

Alumni Mentorship in Action: Connecting The Dots

The Alumni Mentorship in Action: Connecting the Dots brought together alumni and industry partners to guide students in their career preparation journey. Through mock interviews conducted by experienced professionals, students gained valuable exposure to real-world interview practices, enhancing their confidence, communication skills, and readiness for future employment opportunities.

Learning beyond the classroom

Lancaster University Cultural Exchange Programme

MASA Hackathon (1st runner up)

Eastspring Business Challenge (2nd runner up)

Field Trip to PricewaterhouseCoopers (PwC) Malaysia

UMACT Hackathon (Champion)

Field trip to AIA

Empowering Future Actuaries through Willis Towers Watson (WTW, UK)

The first-ever collaboration between WTW and a university to incorporate WTW's licensed software into the actuarial science curriculum. As this software is widely used by companies in Malaysia and globally for their day-to-day operations, early exposure will provide students with valuable practical skills and enhance their industry readiness.

London School of Economics (LSE) Summer School

Study LSE Summer School courses based on LSE's regular undergraduate curriculum and taught by leading LSE faculty. Students may be eligible to transfer credits towards their Sunway University degree, subject to academic approval.

Pathway after SPM/IGCSE

Sunway University Foundation

Duration : 1 year
Intakes : January, April, August
Assessments : 50% coursework and 50% examination

Foundation in Arts (FIA)

(R4/0011/3/0190)(09/30)(A6381)

Entry Requirements:

Passed SPM/O-Level with minimum 5 credits.

SEMESTER 1 (5 Units)

Core Units
- Language and Communication
- Contemporary Business Mathematics

Enrichment Units
- Critical Thinking Skills **OR**
- Culture: Arts and Expressions

Academic Electives (Choose 2 Units)
- Introduction to Accounting Techniques
- Microeconomics: Concepts and Models
- Introduction to Business: Management and Marketing
- Introduction to Mass Communication
- Introduction to Computer Science
- Mathematics for Actuarial Studies
- Music Appreciation**

SEMESTER 2 (4 Units)

Core Unit
- Communication: Audience and Context
- Mathematical Techniques and Analysis

Enrichment Units
- Critical Thinking Skills **OR**
- Culture: Arts and Expressions

Academic Electives (Choose 1 Unit)
- Accounting Processes and Reports
- Macroeconomics: The Global View
- Introduction to Advertising
- Introduction to Programming
- Music Theory & Ensemble**
- Theatre Appreciation

SEMESTER 3 (4 Units)

Core Units
- Language and Knowledge
- Statistical Techniques **OR**
- Contemporary Creative Expression: Film as Art

Enrichment Unit
- Sustainability and Innovation

Academic Electives (Choose 1 Unit)
- Calculus
- Introduction to Business: World of Finance
- Macroeconomics: The Global View
- Introduction to Public Relations
- Introduction to Travel & Cuisine
- Social Media in the New IT World
- Mobile Filmmaking
- Introduction to Psychology

Foundation in Science and Technology (FIST)

(R2/0011/3/0116)(08/29)(MQA/FA4687)

Entry Requirements:

From a Science stream background, passed SPM/O-Level with minimum 5 credits including Mathematics.

SEMESTER 1 (4 Units)

Core Units
- Statistics for Scientists
- ICT Application Skills

Academic Electives (Choose 2 Units)
- Basic Computer Concept
- Biology 1: Introduction to Biology (Lab)
- Chemistry 1: Basic Chemistry (Lab)
- Physics 1: Principles of Mechanical Science (Lab)

SEMESTER 2 (5 Units)

Core Unit
- Academic Writing

Enrichment Units
- Critical Thinking Skills
- Science and Ethics

Academic Electives (Choose 2 Units)
- Mathematics 2: Mathematics for Scientists*
- Chemistry 2: Principles of Chemistry (Lab)**
- Introduction to Renewable Energy
- Introduction to Programming
- Biology 2: Principles of Cell Biology (Lab)**

SEMESTER 3 (4 Units)

Core Unit
- English Language for Scientists

Enrichment Units
- Sustainability and Innovation

Academic Electives (Choose 2 Units)
- Mathematics 2: Mathematics for Scientists*
- Mathematics 3: Technical Mathematics
- Physics 2: Principles of Electrical Science (Lab)**
- Introduction to Food Science (Lab)
- Introduction to Psychology
- Biology 3: Principles of Human Biology (Lab)**

* ***This subject is highly recommended for all stream of studies.***
** ***Note:*** *Completion of prerequisites is needed before pursuing this subject. Please consult programme advisors.*

Entry Requirements

Intakes : February, May, September **Duration : 3 years**

Bachelor of Science (Honours) in
- Actuarial Studies
- Statistical Data Modelling

ENTRY REQUIREMENTS

- **STPM** – Average C+ or CGPA 2.33 (Minimum 2 principals)
- **A-Level** – Minimum 12 points (Minimum of Grade D from 2 subjects)
- **Australian Matriculation** – ATAR 60
- **Canadian International Matriculation Programme** – 60%
- **MUFY** – 60%
- **Sunway Foundation in Arts** – CGPA 2.00
- **Sunway Foundation in Science & Technology** – CGPA 2.00
- **UEC** – Maximum 26 points from 5 subjects (all Grade Bs)
- **IB Diploma** – Completed with minimum 25 points (excluding bonus points)
- **Sunway Diploma*** – CGPA 2.00 or equivalent
  ** Students may obtain advanced standing if credit transfer requirements are met.*
- **APEL.A** – An APEL.A Certification (APEL T-6) Recognition of Prior Learning

SPECIFIC REQUIREMENTS

- Credit in Mathematics at SPM or equivalent

ENGLISH REQUIREMENTS

- **IELTS or equivalent** – 6.0
- **MUET** – Band 4
- **SPM English** – B
- **UEC English** – B6
- **O-Level English** – Credit
- **Sunway Intensive English Programme (IEP)** – Pass Level 4 with minimum 65%
- **ESL/English** – Satisfactory level in Pre-University programmes, where the medium of instruction is English

Applicants with qualifications other than those described above will be considered on a case-to-case basis.

For A-Level points calculation
A = 10 points B = 8 points C = 6 points D = 4 points E = 2 points

BACHELOR OF SCIENCE (HONS) IN ACTUARIAL STUDIES

(R3/0542/6/0017)(07/32)(MQA/FA1631)

PROGRAMME INTRODUCTION

Bachelor of Science (Hons) in Actuarial Studies draws together a variety of subjects that involve applying mathematical and statistical techniques in the financial services industry is designed to pave the way for students who want to enter a career as an actuary, they will be prepared for professional exams that will lead to a recognised actuary status or specialist in financial risk and insurance industries.

Institute and Faculty of Actuaries (IFoA) UK
Students in our programme who attain an overall average of 65% and above are eligible for **block exemptions** from the IFoA professional exams for CS1, CS2, CM1, CM2, CB1, and CB2. Students who did not attain an overall average of 65% shall be recommended for subject exemptions instead.

Society of Actuaries (SOA) USA
This programme provides exemptions for 3 papers from the Society of Actuaries (SOA) USA through the Validation by Educational Experience (VEE) pathway. Students have to score at least 55% (B- or above) in the designated subjects offered in the programme.

Casualty Actuarial Society (CAS) USA
We offer students comprehensive preparation for the CAS exams and a career in general insurance. Our students have the opportunity to earn up to five exam credits and we also equip them to take additional exams such as Exam 5 and MAS-II.

Accredited by: Institute and Faculty of Actuaries

Recognised by: SOCIETY OF ACTUARIES

Silver Partner of: Casualty Actuarial Society

PROGRAMME STRUCTURE - Courses

Year 1

- Advanced Calculus
- Calculus
- Fundamentals of Accounting •
- Introduction to Probability
- Linear Algebra and Applications
- Principles of Business Finance •••
- Principles of Economics •••
- Programming Principles
- Theory of Interest ••

Year 2

- Derivative Securities I
- Derivative Securities II ••
- Essentials of Employability
- Introduction to Statistics •••
- Life Contingencies I
- Life Contingencies II ••
- Mathematical Methods
- Risk Theory
- Free Elective 1

Year 3

- Ratemaking and Loss Reserving for General Insurance
- Regression Analysis ••
- Simulation and Credibility Theory
- Stochastic Processes ••
- Free Elective 2
- Internship

ELECTIVES WITH SPECIALISATION

- Advanced Actuarial
- Finance & Risk Management
- Actuarial AI

List of electives (Choose 3):

- Advanced Actuarial Statistics ••
- Advanced Actuarial Mathematics and Finance ••
- Survival Models
- Financial Risk Management
- Multivariate Analysis
- Machine Learning Techniques for Data Mining
- Design of Experiments
- Categorical Data Analysis
- Research Project
- Discrete Mathematics
- Time Series and Forecasting

Subjects indicated lead to:

- *SOA VEE exemptions*
- *IFoA exemptions*
- *CAS exam credits*

MOHE COMPULSORY GENERAL STUDIES SUBJECTS

For Local students:

- AI Foundation and Applications
- Bahasa Kebangsaan A *(Applicable to students who did not sit for SPM or did not obtain a Credit in SPM Bahasa Melayu)*
- Community Service for Planetary Health
- Entrepreneurial Mindset & Skills
- Integrity and Anti-Corruption
- Aspirasi Negara Bangsa
- Falsafah dan Cabaran Semasa

For International students:

- AI Foundation and Applications
- Community Service for Planetary Health
- Entrepreneurial Mindset & Skills
- Integrity and Anti-Corruption
- Malaysian Citra
- Bahasa Melayu Komunikasi 2

CAREER PROSPECTS

- Actuarial reserving analyst
- Catastrophe risk analyst
- Chief actuary in life/ health/ property and casualty insurance
- Chief executive officer
- Chief financial officer
- Financial risk manager

The Sunway Advantage

In-house Actuaries

Together with academic staff, our in-house actuaries ensure that our programme syllabus is in close alignment with the industry needs. Our students are highly employable as they are at the forefront in meeting the rising needs for actuarial expertise globally.

Nicholas Yeo

Founder of Actomate, with clients across the ASEAN region. Lectures on Actuarial Statistics and Mathematics subjects.

Sophia Ch'ng

Past President of Actuarial Society of Malaysia. About 20 years of experience in the insurance industry, ranging from life insurance, general insurance, takaful business to shared services.

Calvin Lee

Chartered Actuary and Fellow of the IFoA, and alumnus of Sunway University's BSc (Hons) Actuarial Studies programme. Currently a Senior Actuarial Associate at a leading multinational reinsurance company and a lecturer in Sunway University's Master of Science in Actuarial Analytics programme.

John Lee

Fellow of the IFoA and a Chartered Enterprise Risk Actuary with more than 10 years of experience in the insurance industry. Instructor for Industry-benchmarked Actuarial Risk Course and Actuarial Science undergraduate and postgraduate programmes.

Partner Universities

UNIVERSITY	TRANSFER OPTION: 1+2 ARTICULATION
University of Kent	Students must achieve a minimum overall average of 65% in the 1st year of study*

BACHELOR OF SCIENCE (HONOURS) IN STATISTICAL DATA MODELLING

(R/0542/6/0007)(10/28)(MQA/FA9749)

PROGRAMME INTRODUCTION

Bachelor of Science (Honours) in Statistical Data Modelling is designed to equip students with the skills to analyse complex data through advanced mathematical and statistical methods and AI-computational tools. This supports data-driven decision-making and generate impactful insights.

This programme is the first in ASEAN to be fully aligned with the prestigious **SAS Certified Data Scientist** credential, giving students a competitive edge with industry-relevant skills and preparation for this globally recognised certification.

- **Exam 1 :** Base Programming using SAS 9.4
- **Exam 2:** Forecasting and Optimization using SAS Viya
- **Exam 3:** Machine Learning using SAS Viya
- **Exam 4:** Natural Language Processing and Computer Vision using SAS Viya
- **Exam 5:** Advanced Programming using SAS 9.4

To produce industry-ready graduates and enhance their employability, we offer professional exam preparatory courses and workshops in R, SAS, Excel, and Python.

- AI Analytics Specialist
- AI & Machine Learning Specialist
- AI Research Analyst
- Business Intelligence Analyst
- Financial and Risk Analyst
- Fraud Analytics Specialist
- Health Data Scientist
- Data & AI Consultant
- Data Analytics Engineer
- Data Modelling Analyst
- Data Scientist
- Investment Analyst
- Optimisation & Forecasting Specialist
- Machine Learning Scientist
- Predictive Analytics Specialist
- Quantitative Analyst

The Sunway Advantage

PROFESSIONAL PATHWAY

Sunway Statistical Data Modelling students get the opportunity to complete all 5 SAS exams during their undergraduate study at a discounted rate of USD 25 for each SAS exam (normal price: USD 180). We also prepare students for the SAS exams with an exclusive SAS Preparatory Course.

Our programme prepares students for the globally recognised

(i) SAS Certified Data Scientist Certification;

(ii) Certified Analytics Professional

Certified Analytics Professional (CAP).

PROFESSIONAL SPECIALISATIONS WITH AI COMPUTATIONAL TOOLS

In this programme, students will be awarded two SAS specialisation digital badges, which are

(i) AI and Machine Learning, and

(ii) Data Science.

The programme covers key programming languages such as Python, R, SAS and SQL. Additionally, students can have the opportunity to explore tools like Excel, Power BI and Tableau.

PARTNER UNIVERSITIES

UNIVERSITY	TRANSFER OPTION: 2+1 ARTICULATION
UTS UNIVERSITY OF TECHNOLOGY SYDNEY **Entering** ■ **Bachelor of Mathematical Sciences** (Statistics and Data Science major)	Students must have successfully completed 2 years in Sunway University before transferring.
University of Essex **Entering** ■ **BSc Data Science and Analytics**	Students must achieve a minimum CGPA of 3.0 and above + English: • Credit in SPM 1119 • IELTS – 6.5
UNIVERSITY	**TRANSFER OPTION: 1+2 ARTICULATION**
THE UNIVERSITY OF WESTERN AUSTRALIA **Entering** ■ **Bachelor of Commerce (Business Analytics)** ■ **Bachelor of Science (Mathematics major)** ■ **Bachelor of Science (Data Science major)** ■ **Bachelor of Science (Statistics major)** ■ **Bachelor of Science (Mathematics and Data Science major)** ■ **Bachelor of Science (Mathematics and Statistics major)** ■ **Bachelor of Science (Data Science and Statistics major)** ■ **Bachelor of Mathematics (Mathematics)**	Students must have completed first year with GPA at least 2.7/4.0

ESSEX GLOBAL PARTNERS' SCHOLARSHIP

Undergraduate scholarship for Sunway University students

- £1,500 maximum for entry into the third year of study

Please refer to the University of Essex's website: **www.essex.ac.uk** for more information.

Pathways for Bachelor of Science (Honours) in Statistical Data Modelling

SUNWAY UNIVERSITY
A CLASS ABOVE
https://sunwayuniversity.edu.my

Doctor of Philosophy in Mathematical Sciences
(offered in Sunway University)

- **Master of Science in Applied Mathematics**

or

- **Master of Science in Mathematical Sciences**

(offered in Sunway University)

SAS INSTITUTE
